📄 Trumpas pristatymas

I am an educated E – Concept Developer with strong focus on Graphic Design and Social media.

I have experience in making web design, logos, print design, prototyping, user experience and working with social media so I could be the right person you need! I have worked as an intern in a creative studio „TKposters“ where my tasks were focusing on graphic design and problem solving regarding creative webdesign.

In addition to that you can visit my portfolio website at www.akuckas.com. Please feel free to contact me on the number or email given below and I look forward to meeting you in the near future.
