Hello,

I believe I would fit sales / Customer Support position very well as I have a knowledge in customer service and sales industry. I have experience as commerce manager in logistics, aviation sector where my main duties was to negotiate and sell our services at the best price. I have good relations with everyone as I am easy to communicate with (with my clients we were talking not only about business, but also about daily routine). In my position having limited time and constantly changing conditions, I had to be very stress-resistant and to have problem-solving skills to do my tasks well.

My credo at work is: „If you want to be the best, you have to work for the best“.

I am looking forward to your answer.

Best Regards,
