📄 Trumpas prisistatymas

I am a person that loves to know, to try, and to learn as much as I can. I have worked in a farm in Scotland, chicken factory and laundry in England. Later i have been working as a general operative and a team leader in England, Spectrum brands company for more then one year. I have experience in warehousing, in leading my team, operating the work. In Lithuania I have been working in promotions, tastings, trips as a guide and as a translater for a one year. I am a communicative person, active, honest, loving the work i do. I have two recommendations. As a medical student I have a lot of practice in working with children, adults, elderly people, i had practice in First aid and emergency department, intensive care unit, etc. I am sure I would be able to work with people, to take care of them, to help them in their everyday life, and I have achieved goals in working in a team, both in my work history and my studying practice. I am keen on languages - I know English well, Russian and Germany too, but I would be glad to learn other languages.
